

PLYWOOD CUSTOMER CHECK LIST

Questions you (the salesman) should ask when quoting for Plywood:

1. What is the Plywood to be used for?

.....

Does it have to be structural? (i.e. CE2+ = walls, ceilings, floors)

YES NO

Is it going to be used inside? (E1 formaldehyde level would be recommended)

YES NO

Is the Plywood for exterior use? (Recommended EN 636-3, EN 314-3)

YES NO

Is the board going to be cut? (Most Chinese Poplar core not recommended)

YES NO

2. Do you require FSC / PEFC certified wood?

YES NO

3. Will the Plywood, when in situ, be seen/covered/have a solid face or back?

.....

4. Does the customer specify Redwood Face or Softwood face?

.....
